GOAL

My goal and dream is to work creatively in the future, like in a company that develops and / or designing games or movies in which 3D modeling and special effects are used.

WORK EXPERIENCE

CNC machine operator	Volvo Penta, Vara In the role of CNC Operator I was responsible for a number of machines which I processing engine blocks and decklar. Charging, tool changes, programming and measurement tasks. The service also included group works in quality and production technology which we developed and improved production line.	2002-2009
Measureroom machine operator	Volvo Penta, Vara I worked for a year as a measuring machineoperator. The same factory but a different title. There I learned a program called Quindos, which controls the measurement of the machine. I've also learned a lot in quality reading/drawing.	2006-2007
